New optional kit to extend  
the tray for longer rolls

## Characteristics

- lifts and transports
- up to 120 kilograms
- highly maneuverable
- moves in all directions
- rotates 360° on the spot

**easy**™  
swiss quality  **transporter**

## Characteristics

The Easy Transporter is ideal for lifting and transporting heavy media rolls to and from your printing equipment.

The Easy Transporter has a long flip ramp so that rolls are easily loaded on the lifter. The flip up on the ramp maintains transport security.

With our system, rolls weighing up to 120 kilograms can be raised to a height of up to 110 cm. 70 mm per allow you to turn of crank handle (16 turns for full lifting height).

Low-noise winch with safety crank handle.

200 mm diameter rear wheels enable loads to be transported across uneven floors and steps.

Highly maneuverable.

Retractable wheels “International Patent application pending” allow you to move the lifter in all directions as required, it also rotates 360° on the spot.

The Easy Transporter passes through doorways and openings from 80 cm and wider.

Parking brake on both rear wheels.

The Easy Transporter is made for easy use and durability.  
Tubular construction for maximum loading capacity at reduced weight (>30kg).  
High-quality galvanized finish suitable for clean environments.

**ES430000** Easy Transporter basic unit.

**Accessories:**

**ES430100** Easy Transporter Extension Kit.  
Optional attachment to extend the tray. For transport of rolls up to a length of 2.2 m.

**ES430200** Trolley for transporting long rolls
