

DIGITAL PRINT FINISHING SOLUTIONS

You print... ..We **cut!**

DIGITRIM 44/64 THE EASIEST WAY TO TRIM YOUR PRINTS!

- It automatically re-aligns itself to the image edge!
- Ideal for small production with different sizes
- 1mm accuracy on both X/Y directions

The DIGITRIM features the ability to sense the **FOTOBA CUT MARKS**, available in most RIP softwares. It squares itself to the image side (EU patent: EP 0 951 973 B1 - US patent: US 6,820,526 B1)

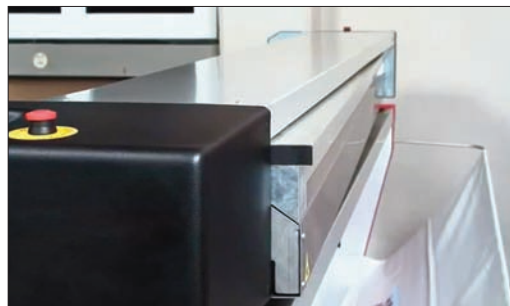

The Digitrim can cut most flexible materials up to 0,5mm, both rolls and sheets.

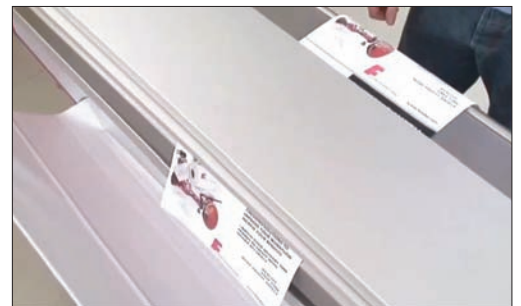

Using this cutter is very easy and doesn't need a special training.

Very easy handling

The self-squaring blade follows any printing misalignment

Can cut different sizes in the same roll (Digitrim nesting)
